

# Who is SAS?

## SAS is the world's leader in analytics. But what does that mean, exactly?

It means we turn huge amounts of complex data into knowledge you can use. And for more than four decades, we've been doing it better than anyone.

With SAS, you can apply the most advanced analytics, business intelligence, data management and AI solutions to your toughest business problems.

Technology has changed.  
And so have we.

The SAS® Platform integrates with open-source technologies.

- ✓ Programming languages such as Python and R.
- ✓ Data frameworks such as Hadoop.
- ✓ Changing physical and virtual hardware environments.
- ✓ Can deploy in all major clouds.

## What does SAS do?

We empower and inspire our customers with the most trusted analytics.
